BA Economics

LANGUAGE

English (native)
Korean (native)

EXPERIENCE

FULL STACK .NET DEVELOPER
2016 – Present | QuoteMule : quotemule.azurewebsites.net

· Developed an ASP.NET MVC 5 application to connect
and facilitate transactions for buyers, suppliers, and shippers
in the construction industry

· Utilized C# ASP.NET MVC with WebApi 2 & MS SQL
to support a jQuery AJAX & AngularJS frontend

· Personally implemented User Messaging with SignalR,
Supplier Search by category, distance, and badge designations
(Bit masking), Ratings using AngularJS bar-rating plugin
and Contract rendering (within the StateMachine process)
with PDF Renderer and Amazon S3 Storage

· Developed using modern best practices including
Dependency Injection, Service Oriented Architecture
and Agile/Scrum with Trello

LA EXPEDITION HACKATHON
March 2017

· Developed an SPA food security decision support system
for the regions of Morocco. Data was collected from Descartes
Labs, NGA, and NASA's global agricultural monitoring system.
Data was accessed via Python and Git Bash

· Utilized ASP.NET, CARTO API, C# & TSQL

· Implemented jQuery, AngularJS, and Bootstrap

· Created graphs using Chart.JS

ASSURANCE SPECIALIST
2015 – 2016 | Ernst & Young LLP

· Utilized SQL to obtain financial data from clients

· Ran queries using Microsoft Excel to obtain required data

ANALYST
2013 | Fine Partners Corp.

· Conducted quantitative analysis of financial data to forecast
revenue, identify future trends, and assess risk associated
with capital expenditures, and joint-venture oil and gas projects
using Microsoft Excel and PowerPoint

· Analyzed and reviewed complex data to assess multimillion
dollar business ventures.

OWNER
2012 | James Kim Photography : jameskimphoto.com/main.php

· Started and organized wedding photography business

· Built website using WordPress and PHP
